Home software ExeOutput for PHP 1.7.0.0 full version from the publisher, . Nov 24, 2009 ExeOutput for PHP 1.7.0 Crack Eng. Ole. Category:PHP1. Field of the Invention The present invention relates to a printing apparatus and a printing method for printing printed matter, for example, a document or the like on a paper sheet. 2. Description of the Related Art Conventionally, the following printing method has been used for printing data which is electronically processed by a computer. In the printing method, the data is converted into print data which is the data in form of bit image data, and the print data is recorded in a print paper. The print paper in which the print data is recorded is conveyed to a printing apparatus, and the print paper is printed by the printing apparatus. In the conventional printing method, the print data is not converted into data in form of bit image data. Therefore, when print data is supplied at a relatively high rate to the printing apparatus, there occurs such a case that the print data is not recorded in the print paper in time. Therefore, an object of the present invention is to provide a printing apparatus which can deal with a problem in that data in form of bit image data is not recorded in print paper in time. The present invention provides a printing apparatus which includes a memory for storing a plurality of print data. Each of the print data is formed by including a first data and a second data having a predetermined relation to the first data, the printing apparatus printing the print data stored in the memory on a print paper. Each of the first data and the second data is a dot image data. The printing apparatus includes a dot data storage section for storing a plurality of dot data formed by the first data and the second data. A print data extracting section extracts the first data and the second data from the dot data stored in the dot data storage section. The present invention also provides a printing method, comprising the steps of storing a plurality of print data 2d92ce491b
