Jul 27, 2018 Black Ops 2 Steam problem, I was playing and suddenly I closed the game, opened the game and the Steam.exe was crashing with a "minidump.dmp" error. Tried some methods to solve the error, but didn't work. So I'm in really bad trouble here. Help me please! I was having the same problem, just restarted my computer and called steam for the first time after installing the game (i installed it off steam) and it told me I could "No Longer Connect to my Steam" on my computer. I've tried solutions and some people said it could be a virus or a failed steam update, but I reinstalled steam and updated steam and the problem still persists and have all the same properties, it just isn't able to see that my steam is installed and I can't log in. I am using the Steam Summer Sale version of the game, if that makes a difference. The game files, in my case, are
