## XVI32

XVI32 is a hex editor for Windows and Mac. While it supports many different data files, it's mostly designed for the management of files in the ISO and the IMG formats. To top it off, you can also use it to open and analyze text files. 1998. The late '90s were a strange time to be a fan of Yakshagana, in that what looked to be the last of its long-respected traditions was about to be shut down. The funding of the Maharashtra Navnirman Sena party (MNS) had threatened the sustenance of this particular strand of ritualised dance, with the state government of the time making cuts and closing down the aanganwadi centres that were the primary body of post-Kumbh Mela administrators, and with them, all forms of Yakshagana. Before the start of the mela, when I first began to watch yakshagana, I would often be approached by an older man for tickets, who would take me into the temple courtyard to see the choreographies set-up. The way that the post-2015 mela felt to me was much like that "farewell", the feeling that perhaps this practice wasn't going to last, with it not being a resource that could be drawn upon in the future. But it was all so much more than a fleeting cultural tradition: it was a form of connectivity, a way to celebrate the communal ties that can be both physical and spiritual. You don't have to look far to find the proof: in the 2011 official government pronouncement on the state's bakhar-khadya observance, the practice of singing "daan" is extolled for its capability to "unify" the community, enabling those from different castes, religions, and social groups to make that very-possible connection. Much of the reason for this is the sheer amount of work involved in staging the yakshagana: it requires multiple performers, intricate choreographies, and props of all shapes and sizes. Behind each of these tasks exists a passion, an endeavour, which is as much one of worship as it is of labour. The community that gathers to watch the performance is intent on connecting with one another, even if it's just through the eye of an audience member, in the exact same manner as those enacting the performance. One might think of
