What's New in the CyberLeader?

Business managers are used to managing the business day to day operations of their company. They have personal expenses, personnel matters, financial information, customer inquiries, events, payrolls, purchases, production records, vendor contracts, and taxes. It is often difficult for them to keep track of all of this information. They can spend days on end searching for lost information, wondering about the accuracy of their information, and just trying to keep up with all the daily routine tasks. CyberLeader - Internet Cafe Software was designed for Internet cafe owners, managers, and business people just like yourself. CyberLeader Internet Cafe Software is an easy to use and extremely easy to use internet cafe management tool that will greatly reduce the amount of time that your business spends on information management. The components of CyberLeader are carefully designed and built to increase the quality of the service your customers receive while your employees are working. In short, CyberLeader is designed to help you and your employees handle everything that is going on in your cyber cafe. CyberLeader Internet Cafe Software is an award winning software package that brings years of customer satisfaction and reviews. With every sale of CyberLeader, we donate 5% of our profits to Unicef. It has been developed using free software packages that are readily available to anyone.]> 18 Jan 2009 09:49:46 +0100Master Event Reminder - Event Pro 9 Master Event Reminder - Event Pro 9 is a powerful, easy to use event planning and management software program that will help you plan and manage all of your special events in a very professional manner.
