"If you apply a little "point of view" to the sound you get a lot of "emotional" and "vibe". Waves Audio Bells A: In addition to "crackle", there are numerous sounds in a session or studio that contribute to the overall "feel" or "vibe" of a song. These include "hiss", "hum", "click", "pop", and the "groove" or "drum" of the track. Sometimes a track is over-compressed and you end up with "noise" and "crackle". At other times, your problem is your mic - either the mic itself is not working well or the mic placement is not good enough. Still other times, it's just a bad signal, or a bad patch that's been sent to the board. 1. Field of the Invention The present invention relates to a simple and quick device to collect small pieces of material found on the floor and which, when collected in a suitable receptacle, can be deposited in a central location where it can be easily transferred to a centralized area for further processing and distribution. 2. Prior Art It is commonplace for a room to have rugs or carpets on the floor. As the rugs are walked across, small pieces of material from the rug, i.e., slivers, fibers, etc., often end up on the floor. Although it is known to provide vacuum cleaners that will pick up small pieces of material on a floor, there are problems with such a system. To operate effectively, the user must remember to vacuum the floor when passing. It is also inconvenient for a user to carry a vacuum cleaner in the hand while trying to walk normally. In addition, cleaning a large 4bc0debe42
