Your account includes real time data from all of your servers and databases. With KEYMACRO, you'll know exactly what's happening in real time - without waiting for the clock to run out. Multiply your growth and revenue potential with KEYMACRO - the most powerful budgeting software ever. With a single license, you can manage all your accounts and projects and easily see your results - in real time. Key Macro allows you to track multiple accounts in real time. As soon as you enter an amount in any one account, all accounts are updated and a graph is automatically generated to show you the flow of money. Key Macro allows you to forecast in real time so that you can anticipate the cash flow. The user interface is simple and elegant. Every transaction in the system is displayed on a chart and is instantly calculated to give you real time estimates of your expenses and revenues. You can quickly change your chart colors to match your budget and to easily identify areas in your budget that need attention. KEYMACRO Features: * All accounts included in the same user interface * Real time data from your servers and databases * All accounts can be graphically tracked in a single window * Updated in real time * Graphically display your accounts in real time * No more waiting * Includes many popular features * A complete accounting system * No other software is necessary * View the cash flow from any account * View the changes in any account * View the changes in any account * Split a single transaction into many sub transactions for more accurate forecasting * Alerts when accounts are nearly out of balance * Support for an unlimited number of accounts * All transactions are included in reports * Graphical reports for each account * Auto generate the reports * Supports all popular accounting software * Can be easily customized * Account manager has been very well documented * 100% free to try for one day * 100% free to try * Money can be easily transferred to other users * In fact, it's 100% free forever! KEYMACRO Key Features: * Shows you exactly where your budget is. * Provides a running estimate of your income and expenses. * Establishes the source of your income and helps you to control it. * Helps you to set aside money for unexpected expenses. * Helps you to get a handle on spending habits. * Estimates your income and expenses. * Keeps you 77a5ca646e

What's New in the?
