Ccy Text Editor is a great way to create documents on your computer without spending a fortune. Notepad++ is one of the most useful text editors for creating and editing documents. It's designed for people who deal with text in one form or another, but can also do a lot more than that. This free and open source text editor, the capabilities of which are beyond the scope of this post, has become the default text editor for people of all skill levels. While it's relatively easy to use, Notepad++ has a number of advanced features that make it the default editor for people who know what they're doing. Notepad++ is actually a multi-platform program, with versions for Windows, Linux, Mac, and several Unix-based platforms. It is available for Windows, macOS, and Linux. What's Notable About Notepad++ It's the default text editor for Windows, Linux, and macOS. It supports numerous programming languages, including C, C++, PHP, HTML, CSS, XML, ASP, ASP.NET, JavaScript, and Tcl. You can add plugins to it that will add support for even more languages. It has a number of keyboard shortcuts, which allows you to quickly access various options, scroll through your documents, change the font size, font, color, wrap mode, and more. You can also easily customize the program, and it comes with numerous add-ons for even more customizations. It has a variety of syntax coloring options. When you save your document, it will automatically update the filename to match the name of the file that was saved. There are two modes for saving documents: HTML and XML. You can use one or the other, or both if you prefer. There are various types of font types you can use, including True Type, Font Book, Open Type, and Postscript. There's a spell checker that will identify spelling errors and suggest alternatives. It's even possible to export the files as HTML5. There are other features, but these are the most notable. Get Notepad++ from Our Website Get Notepad++ software for Windows, Linux and Mac OS. Download Latest Version of Notepad++ here. Enjoy simple, free and open-source powerful text editor for notepad-like functionality and thousands of add-ons. With Notepad++ you can edit text documents. It supports programming languages, web and XML. What's New
