REUTERS/Carlos Barria WASHINGTON (Reuters) - U.S. President-elect Donald Trump will name South Carolina Governor Nikki Haley as the new U.S. Ambassador to the United Nations, NBC News reported on Friday, citing a transition official. NBC said Haley would be among the president-elect’s first Cabinet appointments.Government rejected Mother Teresa's application for citizenship. Vivek Kundra, CBI NEW DELHI: Did Gautam Budh Nagar's Mother Teresa apply for Indian citizenship? This appears to be a question that has confused the investigating agency of the Delhi police's Special Cell. On November 13, the last date for filing applications for citizenship of her kind, Mother Teresa was still in Kolkata. The police, however, believe her to have applied earlier because the application submitted to the Ministry of Home Affairs on December 7, 1989, mentions that the application was already pending with the ministry when she applied. When contacted by TOI for details, the ministry said, "after reviewing the file, we cannot confirm whether a certificate in her name was given by the ministry of external affairs. So we cannot give any information on that." The CBI's Special Investigation Team to probe the alleged connection of the nun to the 1993 Mumbai serial blasts had also come across some documents of Mother Teresa during the course of the investigation. In 2009, the CBI had filed a chargesheet against her, her aide Sabri, unnamed persons and a couple who allegedly bought a bus ticket for Mother Teresa on the day of the blasts. The CBI's spokesperson at the time had said, "This is a well-planned conspiracy. Besides Mother Teresa and Sabri,

CD Key Generator Free [Mac/Win]

CD Key Generator is a software that allows the creation of various types of alphanumeric and numeric keys, as well as other key generators with the following specifications: Public key-generator programs for creating public and private RSA key pairs; Generate RSA keys and certificates; Generate DSA keys and certificates; Creating X.509 certificates and CRLs; Generate the MD2, MD4 and MD5 hashing algorithms; Generate the MSSHP and PKCS5 hashing algorithms; Generate the SHA-1 and SHA-2 hashing algorithms; Generate the Bcrypt algorithm. The program is supposed to generate various types of keys, including random public keys for signing and encryption, private keys, certificates, public certificates, and keys for API and command line tools. The generation of key pairs is supported through the standard RSA, DSA, X.509 and DER formats, and the MD2, MD4 and MD5, MSSHP, PKCS5 and SHA1 algorithms. The generated private keys are used to generate certificates (self signed or signed by a CA) and for other purposes. The random public keys used to sign and encrypt, and the public certificate keys are used to distribute software to devices that are going to use that software. These keys are used to create API and command line tools. The main advantages of CD Key Generator are the lack of payment required, the ease of use, and the support of multiple platforms: Microsoft Windows, Mac OS X, Linux, and many other operating systems. The first thing you must consider, for what is the target purpose and features, is the fact that CD Key Generator can generate the following types of keys for you: Public keys of a size of 1-3,000 characters; Private keys of a size of 100-5000 characters; Public keys of a size of 100-5000 characters; Public keys of a size of 1-100 characters; X.509 certificates; Public and private keys of a size of 1-100 characters; DSA keys of a size of 100-5000 characters; PKS5 hashing-based private keys of a size of 100-5000 characters; SHA1, SHA2, MD2, MD4, MD5, MSSHP and BCRYPT hashing-based private keys of a size of 100-5000 characters; 09e8f5149f
